Titlul: DOOM 2016

Studentul: Doom Slayer, grupa FAF-666

- 1. **Actualitatea temei:** In the first age, In the first battle, When the shadows first lengthened, One stood. He chose the path of perpetual torment.
- 2. Caracteristica proiectului de licență: In his ravenous hatred he found no peace, And with boiling blood he scoured the umbral plains, Seeking vengeance against the dark lords who had wronged him. And those that tasted the bite of his sword named him: The Doom Slayer.
- 3. **Analiza prototipului:** Tempered by the fires of hell, His iron will remained steadfast through the passage. That preys upon the weak, He set forth without pity.
- 4. **Estimarea rezultatelor obținute:** And he hunted the slaves of doom with barbarous cruelty. Unbreakable, incorruptible, unyielding, None could stand before the horde but the Doom Slayer, For he alone was the hell walker.
- 5. **Corectitudinea materialului expus:** They knew he would come, As he always had, As he always will, To feast on the blood of the wicked. The Doom Slayer sought to end the dominion of the dark realm, Despair spread before him, like a plague.
- 6. **Calitatea materialului grafic:** Striking fear into the shadow dwellers, Driving them to deeper and darker pits, His power grew, Swift and unrelenting.
- 7. **Valoarea practică a proiectului:** Blinded by his fervor, the lure drew him in, The priests entombed him in the cursed sarcophagus.
- 8. **Observații și recomandări:** The mark of the doom slayer was burned upon his crypt, A warning to all of hell that the terror within must never be freed. And there he lies still, Ever more, In silent suffering.
